

## ERP cloud hosting with software manufacturer

### VS

## ERP cloud hosting with PeopleSense

<input checked="" type="checkbox"/>	<b>Limit capital expenditures</b> by eliminating infrastructure hardware expenses.	<input checked="" type="checkbox"/>
<input checked="" type="checkbox"/>	<b>Reduce risk and comply with regulations</b> with a critical security control process that is documented and auditable.	<input checked="" type="checkbox"/>
<input checked="" type="checkbox"/>	<b>Avoid costs from cyberattacks</b> with infrastructure stability and security so focus can be on priority activities.	<input checked="" type="checkbox"/>
<input checked="" type="checkbox"/>	<b>Avoid costs from disasters</b> with designed, documented and tested disaster recovery plans.	<input checked="" type="checkbox"/>
<input checked="" type="checkbox"/>	<b>Reduce downtime</b> with access anytime from anywhere.	<input checked="" type="checkbox"/>
<input checked="" type="checkbox"/>	<b>Stay current</b> with software releases and upgrades.	<input checked="" type="checkbox"/>
<input checked="" type="checkbox"/>	<b>Powered by Azure Cloud</b>	<input checked="" type="checkbox"/>
Your only option is Azure. <input checked="" type="checkbox"/>	<b>Choice of AWS or other hosting platforms.</b>	<input checked="" type="checkbox"/>
You rent your software. Rental costs are ongoing. <input checked="" type="checkbox"/>	<b>You own the software.</b>	<input checked="" type="checkbox"/>
You must use manufacturer support. No one else will have access. <input checked="" type="checkbox"/>	<b>You can get support from PeopleSense or a third party.</b>	<input checked="" type="checkbox"/>
No savings. <input checked="" type="checkbox"/>	<b>Up to 1/2 the cost.</b>	<input checked="" type="checkbox"/>
No outside customizations allowed. Only their predominantly overseas staff are allowed to modify the software. <input checked="" type="checkbox"/>	<b>All customizations possible.</b>	<input checked="" type="checkbox"/>
