behind everything
we do at
PeopleSense.

Your continuous
improvement and
success is
our objective.

Experienced Business Process Evaluation Consultants

PeopleSense has assembled a group of skilled technical and Business Process Evaluation (BPE) Consultants with extensive background and experience working with manufacturing companies using Intuitive Manufacturing Software as their primary ERP system.

PeopleSense consultants have over 150+ years of combined Intuitive Manufacturing Software experience.

Our consultants understand the value of listening to your needs and goals and have the skills to help you attain those goals.

Our Intuitive Manufacturing Software Business Process Evaluation Consultants have a broad understanding of Intuitive and experience with hundreds of Intuitive users and their methods. This knowledge gives them a unique perspective with which to evaluate your business processes - a perspective that can sometimes only come from a fresh set of trained eyes.

Our Passion is Driving Your Success

Intuitive Manufacturing Software Business Process Evaluation Procedure

An Intuitive Manufacturing Software Business Process Evaluation will help you recognize and achieve improved business processes. The Business Process Evaluation procedure varies depending on your needs but generally includes the following three steps:

1. Pre-Visit Conference Call

Our consultant will conduct a high level interview with your key personnel. This interview will help our consultant:

- a. Determine areas of concern
- b. Clarify specific goals
- c. Schedule the on-site visit
- d. Prepare your staff for what they should expect during the on-site visit

2. Site Visit

Two (2) or three (3) days on-site at your manufacturing plant and general offices. During this visit our consultant will tour your plant and offices and interview key users in order to:

- a. Understand your business goals
- b. Uncover causes of specific concerns or issues
- c. Assess how you are currently utilizing Intuitive Manufacturing Software and why these methods were implemented
- d. Assure that your procedures are a proper fit for the Intuitive Manufacturing Software system
- e. Review and discuss the findings with management

3. Business Process Evaluation Report

Within two (2) weeks of the site visit our consultant will write a Business Process Evaluation report outlining the findings and recommendations and suggesting a course of action to achieve your goals. This report can be used as a roadmap for implementing improvements and enhancements to your Intuitive Manufacturing Software business processes.

Business Process Improvement (BPI) Consulting

PeopleSense consultants routinely provide expert implementation and training for the following:

- Reporting (VFP and SSRS)
- Advanced Reporting
- Shop Floor Manager
- Bar Code (Legacy Bar Code and Shop Floor Data Collection)
- Planning & Scheduling (Basic and Advanced)
- Advanced Configurator
- ZetaDocs Set-Up

Affordable Prices

Our goal is to help you get the most from your software investment.

Contact us and we will provide you with a Professional Services Agreement, which outlines the way we do business and payment options.

You will find that our rates are competitive and considerably lower than working directly with Intuitive Manufacturing Software.

Single Point of Contact

Gary Cierny has been working with the Intuitive customer base and this network of consultants for 20 years. Contact Gary, and he can give you access to an abundant array of talent. His understanding of Intuitive and the talents at his disposal will ensure the correct consultant is assigned to your project or issue.
