Advanced certifications held by 95% of engineers

One of the largest expert-level engineering teams in Chicago, with the highest ratio of engineers to clients

Engineers average over 12 years of professional experience

Performance-based guarantees

Managed Service Areas

Remote Monitoring and Management

Mindsight's Remote Monitoring and Management offering manages your storage, servers, hypervisors, network, and applications. We provide alert monitoring and ongoing maintenance for your organization.

Collaboration and Contact Center

We manage your unified communications, collaboration, and contact center environments, so you can dedicate resources to other priorities – like strategy. Mindsight is a Cisco Gold Partner and Master Collaboration certified, and you can rely on our engineers to provide the highest level of management.

Cloud Infrastructure as a Service

Cloud environments benefit from the same form of monitoring and management conducted in on-premise data centers. Whether a few applications or your entire environment, Mindsight keeps your cloud-hosted applications and systems in order and performing as expected.

Disaster Recovery and Backup

Everyone needs a safety net. Our engineers oversee, manage, and regularly test our backup solutions, and our team designs and maintains a full disaster recovery strategy. When the worst happens, we'll be your ally in responding to the crisis.

Benefits of Managed Services

Your team is our team.
