

SOLUTION BRIEF

Nimbello for Manufacturing

HOW IT WORKS

- 

Invoice Capture
Nimbello extracts invoices from your inbox and OCR technology captures the invoice data at a line level.
- 

Invoice Approval
Invoices are routed automatically for review and approval.
- 

Touchless Pairing
Automatic 3-way matching; each invoice is matched and paired against the purchase order on a line level, automatically flagging any variances or unnecessary additional charges.
- 

ERP Integration
Nimbello seamlessly pairs vendor and invoice data within your ERP system.
- 

Dashboard & Metrics
Gain transparency and data insights in real time.

Nimbello delivers an invoice automation solution that provides OCR invoice scanning, touchless pairing and matching, and integration with your accounting and ERP systems. All in one platform.

We Make Payable Transactions Simple

Nimbello delivers an accounts payable automation solution that enables organizations to deliver an effortless purchase-to-pay experience. The Company helps its customers put their AP process on autopilot, saving time and money, while improving accuracy and on-time payments.

The Nimbello Difference

Nimbello delivers a white glove managed service

We run and operate the system for you, providing you with the expert service and technology to get your business where it needs to go. With Nimbello managing your AP process, you don't have to know how to drive, operate, and navigate the obstacles to reach your destination of financial peace of mind. We manage the full range of your purchase-to-pay experience, from invoices to payments and you get 24x7 support.

Nothing is too complex for us to handle

While other companies can automate the AP process for simple invoices, Nimbello is purpose-built for complex AP processes. With our deep knowledge of AP and Finance, we focus on the most difficult invoices, including three-way matching. This includes cross-referencing invoices with their corresponding purchase orders (PO) and multiple receipts to make sure all pertinent details match.

We play nicely with others

At Nimbello, we support the most critical integrations for our customers, with a deep focus on the technology needs of manufacturing, healthcare, and education. By integrating with your existing ERP system, you are ensured of improved efficiency and productivity for your business.

We value your time

We know your time is valuable, and time is money. That's why we get you up and running on Nimbello quickly, with most customers going live with Nimbello in less than 90 days and see a return on investment (ROI) in often just a few months. And Nimbello is configurable to meet your business needs. You are not stuck with pre-built workflows that may not be right for you.

Customers love Nimbello

We are small enough to care, and large enough to deliver. With a 100% retention rate, our customers have shown their delight in working with us. We keep our promises and commitments to each customer, and we save them time and money.
